# SA

10 ► 20 HP

850 ► 1250

Max 160

Very light

The SA model is the lightest tiller in the Sicma range and with its low energy absorption it can be used on tractors with powers of between 10 and 20 horsepower.

Its manual lateral movement make it a very popular model; easy to manoeuvre and transport, it is suitable for light use.

Double boxed sheet metal frame

SICMA production gears made of heat-treated alloy steel

"Long life" seal in the rotor bearings

**EUROCARDAN**  
 ENERGY ON THE MOVE

 Universal  
 shaft size 4

 High rigidity  
 3-point hitch

 1-speed gearbox made  
 by SICMA with conical  
 roller bearings

 Cross  
 the transmission

## OPTIONAL

### Flexible clutch

In case of sudden absorption of power there are two discs that slide, thereby redistributing the forces.

### Shear bolt

They adjust the working depth of the rotary tiller.
